DAR SERIES

Surpassing expectations for nearly 10 years
The absolute best 4ch digital Karaoke amplifier

The amplifier uses an exclusive device to get 95% or higher efficiency of power conversion to reduce heat generation.

Improved consolidation ratio reduced the number of parts.

Consequently, noise and the influence of background noise have been cut down dramatically.

The use of BTL connection enables the amplifier to be used as a high power amplifier (BTL Power:360W x 2ch).
